READ-ME

This template was used by me (Dinesh Mali) for writing the project report for my M.Tech. final semester Project. The previous auther of the template is Harish Bhandari. This template and the faq's can be found here.

I lost significant amount of time in finding best templates available on web during my project, so if you are a LaTeX user and want to save your time, you are welcome to download and use this template.

This is not the final template or outline provided by CMS. You can consult your project guide before using it.

While using this template, every time you edit the chapter or anything, execute the following commands in the directory containing thesis.tex.

```
touch thesis.tex
make thesis.pdf
```

Please feel free to use and modify it for your own non-commercial purpose and in line with GNU General Public License. Find the notes.pdf in the this directory for editing the template.
